PETITION FOR REVIEW OF NOTIFICATION OF OMITTED ITEMS
UNDER 37 CFR 1.53 (e)

Mail Stop Missing Parts
Commissioner for Patents
P.O. Box 1450
Alexandria, Virginia 22313-1450

Sir:

Applicants respectfully petition the Commissioner for review of the Notice of Apparent Omission of page 1 of the specification and request the Examiner to acknowledge that page 1 of the specification was in fact received by the US Patent and Trademark Office, and to perform an early examination and allowance of the application.

INTRODUCTION

The above-captioned United States Patent Application was filed under 37 CFR 1.53 (b) and a notice of apparent omission was contained in a Notice To File Missing Parts Of Nonprovisional Application filed under 37 CFR 1.53 (b) mailed October 22, 2004 (copy enclosed).

This submission is a partial response to the Notice To File Missing Parts and is directed to that part of the Notice To File Missing Parts pertaining to the notice of apparent omission of page 1 of the specification of the application.

Applicants respectfully assert that page 1 of the specification was not omitted from the application as originally filed. Applicants contend that the noted apparently omitted item was in fact deposited in the US Patent and Trademark Office with the nonprovisional application papers. A copy of page 1 of the specification noted as apparently omitted, the \$130.00 petition fee required under 37 CFR 1.17 (h) and evidence of such deposit accompanies this petition.

STATEMENT OF FACTS

1. On March 15, 2004 page one of the specification and other application papers were submitted to the United States Patent and Trademark Office with both a certificate of mailing by "Express Mail" and with an accompanying return postcard (copy enclosed). A copy of the Utility Patent Application Transmittal bearing the Certificate of Mailing, and filed under the Certificate of Mailing by "Express Mail" and return postcard procedures is enclosed. A copy of the Express Mail Customer Copy is also enclosed.

2. The fourteen (14) pages of specification (including claims) referred to in the Utility Patent Application Transmittal filed under the Certificate of Mailing by "Express Mail" provision and also under the return postcard procedure are enclosed. Included, is the top sheet which comprises (the apparently missing) page 1 of the specification, bearing the

PATENT
ATTORNEY DOCKET NO. 77137

title of the application and a portion of the application entitled "Background of the Invention".

3. The enclosed return postcard stamped by the USPTO clearly refers to a specification containing fourteen (14) pages (see item 3 of the postcard) and item 1 of the postcard refers to the enclosed Utility Patent Application Transmittal. The enclosed Utility Patent Application Transmittal clearly states that "fourteen (14) pages of the specification (including claims) are enclosed".

CONCLUSION

As can be seen from the above, page 1 of the specification was received by the U.S. Patent and Trademark Office along with other application papers as originally filed, as evidenced by enclosed copies of the return postcard and Utility Patent Application Transmittal and other papers filed under the Certificate of Mailing by "Express Mail" provisions.

Accordingly, in light of the above, it is respectfully requested that the application receive an early examination and notice of allowance.

Respectfully submitted,
FITCH, EVEN, TABIN & FLANNERY
